PROPOSED ZONING: The applicant is requesting to rezone the subject property, approximately 22.11 acres, from "AG" - Agricultural District to "LI" - Light Industrial District, generally for industrial uses.

Within the past several years, there has been a desire to maintain and grow the City's industrial base within this sector. Given the area's designation for industrial uses, the proposed request should complement the surrounding properties, and should help establish the area as a strong employment center. As such, Staff recommends approval of the proposed zoning request.

CONFORMANCE TO ONE MCKINNEY 2040: A key aspect of the ONE McKinney 2040 Comprehensive Plan is to provide direction related to desired development patterns and to inform decisions related to the timing and phasing for future infrastructure investments in the City. To assist in guiding these decisions, the Preferred Scenario and a series of Land Use Diagrams establish distinctive districts, each with a clear intent, market focus, and desired development patterns that are reinforced through character-defining placetypes. Per the Preferred Scenario, the subject property is located in the Oak Hollow District. General placetypes included in this district are Employment Mix, Suburban Living, Urban Living, Neighborhood Commercial, and Manufacturing & Warehousing.

- Guiding Principles: The proposed rezoning request is generally in conformance with Guiding Principle of "Diversity (Supporting our Economy and People)" established by the Comprehensive Plan. In particular, the proposed request has the potential to provide "diverse economic engines... broaden the tax base, and make the City's economy more adaptable and resilient".
- Land Use Diagram Compatibility: In evaluating development requests, the City should determine that a project meets the majority of the established criteria to be considered compatible with the Land Use Diagram. The proposed rezoning request aligns with the Employment Mix placetype of the Oak Hollow District. Furthermore, the proposed request of "LI" - Light Industrial District should be compatible with the surrounding properties and placetypes, including Employment Mix and Manufacturing & Warehousing placetypes.
- Land Use and Tax Base Summary: Module 10 is currently comprised of approximately 8% residential uses, 84% non-residential uses (including institutional and agricultural uses), and 8% within the City of McKinney Extraterritorial Jurisdiction. The proposed rezoning request will have no impact on the anticipated land uses in this module. Estimated tax revenues in Module 10 are comprised of approximately 18% from residential uses and 81% from non-residential uses (Including agricultural uses). Estimated tax revenues by type in Module 10 are comprised of approximately 51.6% ad valorem taxes and 48.4% sales and use taxes.
