BOARD OF ADJUSTMENT CASE NUMBER: 20-01

MEETING DATE: February 12, 2020

DEPARTMENT: Development Services - Building Inspections

CONTACT: Rick Herzberger, Chief Building Official

RECOMMENDED BOARD ACTION: Consider this appeal request and determine if the Building Official made the correct determination in not approving the variance request to be heard by the Board of Adjustment.

ITEM SUMMARY: The applicant/owner desires to construct an open accessory structure in the rear yard and locate the structure within the required side at corner setback of 15' feet. The Building Official determined that the applicant/owner can locate the structure in the rear yard and meet the required 15' side at corner setback. The applicant/owner feels like they can present conditions that qualify under the variance requirements in the zoning ordinance.

ZONING: PD - Planned Development Ordinance 1993-06-015 SF-2 setback regulations.

EXISTING CONDITIONS: This is a conforming lot and the rear yard has space to locate the structure within the required setback.

VARIANCE REQUESTED:

ZONING ORDINANCE REQUIREMENTS	REQUESTED SETBACK	VARIANCE
Side Yard at Corner - 15' from property line	7'6" setback	7'6" setback

APPLICANT'S BASIS FOR VARIANCE: See description on the application and attachment.

PUBLIC SUPPORT/OPPOSITION OF REQUEST:

To date, no letters of support and no letters of opposition have been submitted.

BOARD AUTHORITY:

Variances. The board shall have the power to authorize upon appeal in specific cases such variance from the terms of this chapter as will not be contrary to the public interest, where, owing to special conditions, a literal enforcement of the provisions of this chapter will result in unnecessary hardship, and so that the spirit of this chapter shall be observed and substantial justice done, including the following:

1. Permit a variance in the yard requirements of any district where there are unusual and practical difficulties or unnecessary hardships in the carrying out of these provisions due to an irregular shape of the lot, topographical or other conditions, provided such variance will not seriously affect any adjoining property or the general welfare; and
2. Authorize upon appeal, whenever a property owner can show that a strict application of the terms of this chapter relating to the construction or alterations of buildings or structures will impose upon him unusual and practical difficulties or particular hardship, such variances from the strict application of this chapter as are in harmony with its general purpose and intent, but only when the board is satisfied that a granting of such variation will not merely serve as a convenience to the applicant, but will alleviate some demonstrable and unusual hardship or difficulty so great as to warrant a variance from the zoning ordinance as established by this chapter, and at the same time, the surrounding property will be properly protected.
