McKinney National Airport (TKI) was established in 1979 as a general aviation airport. The long range plan for the airport has always been to maximize the economic impact of the airport on the City of McKinney, Collin County and the region. In 2013, the City of McKinney acquired the McKinney Air Center fixed based operator (FBO), taking on hangar ownership and rental, fuel sales, and aeronautical services at TKI. Development of the airport has always been on the west side of the runway, but available land on the west side is running short, necessitating development of the east side. The City of McKinney purchased approximately 190 acres of land on the east side in 2018 to facilitate future development. The City Council has directed staff to begin design of the east side, including needed infrastructure such as taxiways, ramp space, parking, and utilities. Design of the infrastructure is nearing completion and the council has directed staff to move forward with construction of the infrastructure as well as a commercial passenger service terminal. The proposed terminal will expand TKI from general aviation only to a full service airport offering general aviation and commercial passenger service.

Plans for future expansion / growth.

The proposed infrastructure will enable development of various aviation uses on the east side of the airport. The plan is to maximize flexibility to allow for growth in the future as the market and economy dictate. The proposed terminal is a small phase one terminal that is expandable, but is intended as a relatively inexpensive terminal to prove that commercial service is viable at TKI. If commercial service is successful, future expansion would include the construction of an entirely new terminal north of the first phase. The first phase terminal would continue to offer gates for the terminal or could be repurposed as a maintenance facility and/or rental car facility.

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they
