### Comments

A few blocks down the street north from my house approximately 10 apartment complexes exist or are under construction. A complex is under construction across the street on the NE corner. This rezone intends to build another complex on the NW corner across the street. A rough guess is that each complex will house 300 people. Housing subdivisions are being added a few blocks to the south. Local infrastructure will not support this many people, especially

schooling and roads. Traffic is already becoming an issue and most of the complexes have yet to be completed. Safety and security will obviously be an issue.
