

ORGANIZATIONAL REPORT

2021 - September

McKinney Economic Development Corporation

MEDC Board,

We are in the midst of another record breaking year for capital investment in the City of McKinney. The development and investment opportunities keep coming our way and staff has done a fantastic job of creating leads, while we navigate the COVID waters that continue to disrupt our normal flow of operations. We are starting Q4 with a great announcement coming on Sept 22nd and it will be a big benefit to our community. More to come soon.

I want to officially welcome Mohamed Kacem to the Board of Directors as our new Alternate member and welcome back all our reappointed Board members. I am looking forward to continuing our journey together as we develop our great city.

Peter

Organizational Updates

- Staff is working with McKinney Chamber/McKinney Community Development Corporation (MCDC) leaders to plan and design the new office space at District 121. Staff met with Kaizen on August 30th to discuss test fits and we are steadily making progress. We hope to have a draft lease by month's end.
- We will be sending out a poll to find the right date for our 2022 Strategic planning retreat. Please be on the lookout for an email in the coming weeks.
- The posting for a Marketing Manager is going live on Monday, September 20th. We hope to have the position filled by early November.

What is Apple's Mail Privacy Protection - Why it Matters?

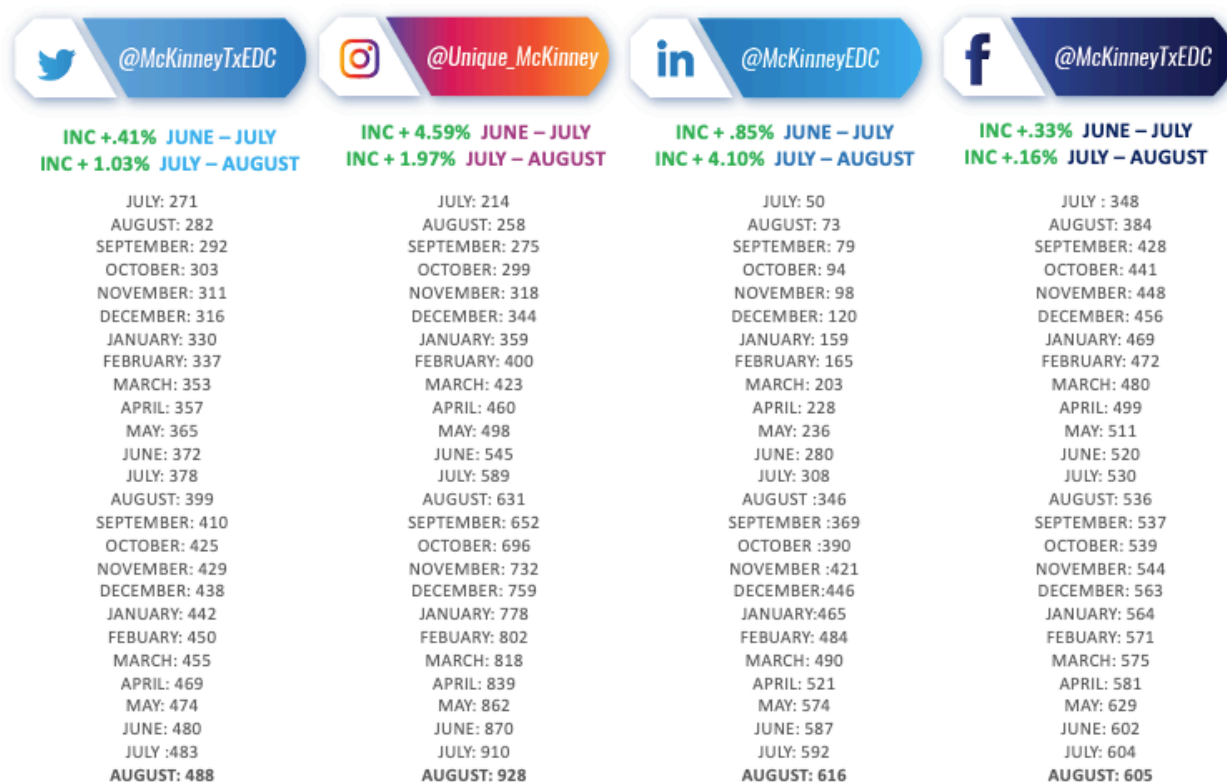

Apple's Mail Privacy Protection, part of the new iOS update, will change email because it will allow users to mask information such as when and where they open an email, on what device, and any other online activity linked to that device. This information is normally used by marketers.

What we're doing about it?

Centipede Digital® is implementing systems that can track richer metrics in response to these new regulations. However, as seasoned marketers, we understand that email opens do not necessarily equate to an intent to purchase/convert. Therefore, the Agency will continue to explore other key email marketing metrics that can still gather to make intelligent marketing decisions.

While we might have to get a little more creative in figuring out what customers really want to see in their inboxes, the goal is still to connect with our audience.
