APPLICATION SUBMITTAL DATE: June 15, 2020 (Original Application)

PROPOSED ZONING: The applicant is requesting to rezone the subject property, generally for single family uses and to modify the development standards as further described below.

- Setbacks
 - The front yard setback in the existing zoning for detached single family lots requires a 10-foot build-to-line, with an ability to encroach up to five feet for balconies, covered porches, stoops, and similar architectural structures. The applicant proposes to remove the build-to-line requirement and increase the front yard setback to 17 feet with the same ability to encroach up to 5 feet. Staff does not have any objections to this request.
- Landscape
 - The applicant is further clarifying the language in the existing zoning that no trees are required in the rear yards of the detached residential lots that are less than 50 feet in width. The applicant also clarifies that trees are not required along the alleys on the townhome lots. These modifications provide clarity on the language and intent of the existing zoning regulations.

CONFORMANCE TO ONE MCKINNEY 2040: A key aspect of the ONE McKinney 2040 Comprehensive Plan is to provide direction related to the desired development patterns and to inform decisions related to the timing and phasing for future infrastructure investments in the City. To assist in guiding these decisions, the Preferred Scenario and series of Land Use Diagrams establish distinctive districts, each with a clear intent, market focus, and desired development patterns that are reinforced through character-defining placetypes.

Per the Preferred Scenario, the subject property is located in the Southgate District and is designated as the 'Urban Living' placetype. General placetypes also included in this district are Suburban Living, Mixed-Use Center, and Professional Campus.

- Guiding Principles: The proposed rezoning request is generally in conformance with Guiding Principle of "Diversity (Supporting our Economy and People)" established by the Comprehensive Plan. In particular, the proposed request has the potential to provide "private development, public investments, and community engagement support the people of McKinney by making available housing options and neighborhood choices that are accessible, attainable and appealing to people at all stages of their lives."
- Land Use Diagram Compatibility: In evaluating development requests, the City should determine that a project meets the majority of the established criteria to be considered compatible with the Land Use Diagram. The proposed rezoning request generally aligns with the Urban Living placetype. Furthermore, the proposed request is compatible with the Land Use Diagram of the comprehensive plan and with the surrounding developments.
- Fiscal Model Analysis: The attached fiscal analysis shows a fiscal benefit of \$0 for the 47-acre property. It is important to note that the reason for this is because the zoning classification is remaining the same.
 - The net surplus for both the existing and proposed zoning is \$315,690.

OPPOSITION TO OR SUPPORT OF REQUEST: Staff has received no comments or phone calls in support of or opposition to this request.

BOARD OR COMMISSION RECOMMENDATION: On July 14, 2020, the Planning and Zoning Commission voted 7-0-0 to recommend approval of the proposed rezoning request.
