PROPOSED ZONING: The applicant is requesting to rezone the subject property from "AG" - Agricultural District to "LI" - Light Industrial District, generally for industrial uses.

Given that the property fronts Wilmeth Road and that adjacent properties are developed with industrial uses, Staff is of the professional opinion that the rezoning request is appropriate and will be compatible with the surrounding uses. As such, Staff recommends approval of the proposed rezoning request.

CONFORMANCE TO ONE MCKINNEY 2040: A key aspect of the ONE McKinney 2040 Comprehensive Plan is to provide direction related to the desired development patterns and to inform decisions related to the timing and phasing for future infrastructure investments in the City. To assist in guiding these decisions, the Preferred Scenario and Land Use Diagram establish distinctive districts, each with a clear intent and market focus that are reinforced through character-defining placetypes.

Per the Preferred Scenario, the subject property is designated as the Employment Mix placetype and is within the Oak Hollow District. Other placetypes included in this district are Urban Living, Suburban Living and Neighborhood Commercial.

- Guiding Principles: The proposed rezoning request is generally in conformance with Guiding Principle of "Diversity (Supporting our Economy and People)" established by the Comprehensive Plan. In particular, the proposed request has the potential to provide "diverse economic engines... broaden the tax base, and make the City's economy more adaptable and resilient".
- Land Use Diagram Compatibility: In evaluating development requests, the City should determine that a project meets the majority of the established criteria to be considered compatible with the Land Use Diagram. The proposed rezoning request aligns with the 'Employment Mix' placetype of the Oak Hollow District.
- Fiscal Model Analysis: The attached fiscal analysis shows a positive fiscal benefit of \$136,405 for the property and should contribute to achieving an overall fiscal balance in the city. Some key takeaways for this property include:

- The proposed zoning is expected to provide nearly double the potential development value than the current zoning.
