**COUNCIL GOAL:** Financially Sound Government

**RECOMMENDED CITY COUNCIL ACTION:**

- Staff recommends approval of the resolution.

**ITEM SUMMARY:**

- The Legislature's GRIP (Gas Reliability Infrastructure Program) process allows gas utilities to receive annual rate increases associated with capital investments.
- The RRM (Rate Review Mechanism) process, which is summarized in the "background information" section of the staff report, has proven to result in a more efficient and less costly (both from a consumer rate impact perspective and from a ratemaking perspective) than the GRIP process.
- Given Atmos Mid-Tex's claim that its historic cost of service should entitle it to recover \$43.4 million in additional system-wide revenues, the RRM settlement at \$22.78 million for ACSC Cities reflects substantial savings to ACSC Cities. Settlement at \$22.78 million (plus \$3.8 of additional savings due to the two-month delay) is fair and reasonable. The ACSC Executive Committee consisting of city employees of 18 ACSC members has urged all ACSC members to pass the Resolution before October 1, 2021. New rates become effective December 1, 2021.

**BACKGROUND INFORMATION:**

- McKinney, along with 171 other Mid-Texas cities served by Atmos Energy Corporation, Mid-Tex Division (“Atmos Mid-Tex” or “Company”), is a member of the Atmos Cities Steering Committee (“ACSC”). In 2007, ACSC and Atmos Mid-Tex settled a rate application filed by the Company pursuant to Section 104.301 of the Texas Utilities Code for an interim rate adjustment commonly referred to as a GRIP filing (arising out of the Gas Reliability Infrastructure Program legislation). That settlement created a substitute rate review process, referred to as Rate Review Mechanism (“RRM”), as a substitute for future filings under the GRIP statute.
- On or about April 1, 2021, the Company filed a rate request pursuant to the RRM Tariff adopted by ACSC members. The Company claimed that its cost-of-service in a test year ending December 31, 2020, entitled it to additional system-wide revenues of \$43.4 million. Application of the standards set forth in ACSC’s RRM Tariff reduces the Company’s request to \$40.5 million, \$29.3 million of which would be applicable to ACSC members. ACSC’s consultants concluded that the system-wide deficiency under the RRM regime should be \$22.34 million instead of the claimed \$40.5 million. The amount of the \$22.34 million deficiency applicable to ACSC members would be \$16.8 million.

**FINANCIAL SUMMARY:**

- Atmos generated proof that the rate tariffs attached to the Resolution will generate \$22.78 million in additional revenues from ACSC Cities. That proof is attached as Attachment 1 to this Staff Report. ACSC consultants have agreed that Atmos’ Proof of Revenues is accurate.
- The impact of the settlement on average residential rates is an increase of \$1.28 on a monthly basis, or 2.2 percent. The increase for average commercial usage will be \$4.03 or 1.61 percent.
- Further information is available in the body of the resolution, and the ACSC Staff Report Attachments.
