**PROPOSED ZONING:** The applicant requests to rezone the subject property generally for single-family residential uses.

The ONE McKinney 2040 Comprehensive Plan designates the subject property as the Suburban Living placetype. Surrounding properties are all developed as single-family residential uses, including straight zonings that follow the R5 standards on the north and south. The proposed zoning of "R5" - Residential District meets the comprehensive plan designation and is compatible with the adjacent properties.

As such, Staff recommend approval of the proposed rezoning.

**CONFORMANCE TO THE ONE MCKINNEY 2040 COMPREHENSIVE PLAN:** A key aspect of the ONE McKinney 2040 Comprehensive Plan is to provide direction related to desired development patterns in the city and to inform decisions related to the timing and phasing of future infrastructure investments. To assist in guiding these decisions, the plan includes a set of Guiding Principles that provide overall guidance and a Preferred Scenario and Land Use Diagram that illustrates the desired development patterns in the city. The Preferred Scenario and Land Use Diagram are built upon a series of distinctive districts, each with a specific purpose, focus and market. Each district consists of a mix of placetypes that identify the predominate land uses and desired pattern of development for the district.

- Guiding Principles:  
The proposed rezoning request is generally in conformance with the Guiding Principle of "Diversity (Supporting our Economy and People)" established by the Comprehensive Plan. In particular, the proposed request has the potential to provide "[...]housing options and neighborhood choices that are accessible, attainable and appealing to people at all stages of their lives."
- Preferred Scenario and Land Use Diagram Characteristics:  
Per the Preferred Scenario and Land Use Diagram, the subject property is located in the Trinity Falls District and is designated as the Suburban Living placetype.

**Suburban Living** is found in close proximity to neighborhood commercial and commercial centers. Suburban Living provides the population necessary to support the nearby commercial and professional office uses within the surrounding corridors. These neighborhoods generally feature a subdivision layout. Residential uses are typically self-contained with a buffer from non-residential developments through transitional uses and landscaped areas. Lot sizes in Suburban Living areas are consistently less than 1/2 acre.

- Land Use Diagram Compatibility:  
When considering land use decisions, the City should determine that a project aligns with the Land Use Diagram and/or meets a majority of the plan's established criteria to be considered compatible with the Land Use Diagram. The proposed rezoning request **aligns** with the Suburban Living placetype of the Trinity Falls District, is in conformance with the Land Use

Diagram and should be compatible with the surrounding properties.

**OPPOSITION TO OR SUPPORT OF REQUEST:** Staff has received no letters of support to this request and no letters of opposition. This does not include emails or letters that may have been sent directly to members of the Council. Staff has not received any citizen comments through the online citizen portal.
